4. On the basis of the very unsatisfactory UPSWING reply to our request for information on DOHM, we intend to make our next query a matter of official record. @ Dr. HERDER, undoubtedly; will feel that he must refer any query, informal oral question or official memo, to UTILITY's office. UTILITY is currently on a two months' vacation and we expect no further action or information from UPSWING until UTILITY's return. Our next query to UPSWING is going to refer to the February 1955 UJDRIZZIY conference during which Mrs. GIUMINI nee CLIRICI or CLERICI was mentioned in connection with Wilhelm KUEPPERS (see reference c.). We shall ask whether there is any connection between Mrs. DOHM nee GIUMINI and Mrs. GIUMINI nee CLIRICI/CLERICI. We doubt that UPSWING will feel they can side-step the question since it will refer to information previously given to us by them. The one positive bit of information garnered from UTILITY's refusal to pass any real information on DOHM is that DOHM apparently falls within the Rote Kapelle complex in UPSWING's investigations (UTILITY's private and unshared domain) or DOHM is of some operational interest to UPSWING. Headquarters will appreciate that our hands are tied at the moment by the combination of UTILITY's flat order that any Rote Kapelle information must be cleared by him personally and UTILITY's vacation.
